

# STEW SABATINO

stewsabatino@gmail.com | (708) 828-4352 | New Lenox, IL 60451

---

## Summary

Seasoned Professional equipped with great project management experience. Ambitious Software Developer that accomplishes project goals consistently with elegant, scalable and readable code. Works great with team members under Agile and Scrum frameworks.

---

## Skills

- HTML5/CSS
- JavaScript/jQuery
- NodeJs
- Express
- MySQL
- RESTful API
- MongoDB/noSQL
- React
- GraphQL
- Git workflow
- Development, testing and deployment
- Agile development methodologies
- Interface design and implementation
- Requirements analysis and design phases
- Project management
- Team player
- Performance and scalability optimization
- Project documentation
- Cross-functional teamwork
- Model, View and Controller design pattern

---

## Experience

### **Plant Manager** | Prairie Material - Manteno, IL | 03/2020 - 09/2021

- Supervised 25 hourly employees and 1 supervisor for a 1.3M ton per year quarry.
- Managed financial decisions for the plant, including inventory management, as well as labor and capital planning to ensure adherence to all budgets and financial goals.
- Worked cross-functionally to create yearly budgets and forecasts.
- Built a strong new culture of safety and accountability.
- Planned winter shutdown maintenance on high downtime items and managed through strict time management.
- Hired and supervised two new shifts and trained new employees to comply with Prairie policies, MSHA regulations and operational excellence.
- Developed close relationships with local state departments and customers.

### **Project Manager** | Prairie Material - Manteno, IL | 11/2019 - 03/2020

- Located site inefficiencies and implemented plant upgrades to increase production while enhancing control of qualities.
- Worked closely with cross-functional teams to complete projects.
- Designed a 5-year mine plan to open up reserves and to adhere to IDOT regulations.
- Completed Capital Appropriation Requests for CAPEX projects.

### **Production Supervisor** | Lehigh Hanson - McCook, IL | 01/2017 - 11/2019

- Created capital and operating budgets in order to meet and exceed budget and KPI targets.
- Reviewed management reports and financial statements in order to reduce operating costs and improve productivity.
- Lead a strong safety and environmental culture within MSHA regulations while developing and maintaining a high level of performance within the mining operations.
- Managed the maintenance of all plant and mobile equipment in order to ensure maximum availability and utilization, while minimizing cost.
- Worked closely with area sales and quality control groups to ensure adherence to internal and external quality control requirements for all aggregate products, while balancing customer demand and production capabilities.
- Provided direct oversight to 20 direct reports in the extraction, processing, inventory storage, and shipping of aggregates at the site.
- Involved in the implementation of Lehigh Hanson's largest capital investment in developing an underground mine.

---

## Education

Northwestern University | Expected in 12/2021  
Full Stack Web Development

Southern Illinois University | Carbondale, IL | 12/2016  
**Bachelor of Science:** Mining Engineering  
GPA: 3.3 / 4.0

---
